

Jayden Byron Maans

Junior Software Developer · Front Desk Coordinator · Founder, Lume Systems (Pty) Ltd

Cape Town, Western Cape | github.com/maansjayden | linkedin.com/in/jaydenmaans | maansjayden56@gmail.com

PROFILE

Final-year NQF Level 6 software engineering student at WeThinkCode_ with hands-on experience in Python, Java, and full-stack web development. Founder of Lume Systems (Pty) Ltd, delivering software and automation solutions for SME clients. Passionate about building accessible, impactful technology and eager to contribute to a collaborative development team.

TECHNICAL SKILLS

Languages	Python, Java, JavaScript, HTML, CSS, SQL
Frameworks	React, Vite, FastAPI, Node.js
Tools	Git, GitHub, IntelliJ IDEA, VS Code, ReportLab, Postman
Databases	PostgreSQL, SQLite
Other	REST APIs, CI/CD (GitHub Actions), Linux (Pop!_OS), WhatsApp API (Twilio), PWA development

PROJECTS

LUME — AI Accessibility PWA

React + Vite, Google Gemini 2.5 Flash, Picovoice Porcupine, Netlify | github.com/maansjayden/lume-app

- Built for the ISAZI AI for Accessibility Hackathon 2026 in a 3-person team.
- Implemented real-time hazard detection, traffic light recognition, and allergen scanning (Vision module).
- Integrated Gemini 2.5 Flash for plain-language text summarisation (Simplify module).
- Debugged competing SpeechRecognition instances and implemented wake-word voice triggers.

Java Journey (JAVJer) — Interactive Java Learning App

Java, Google AI Studio | github.com/maansjayden/JAVJer

- Built an interactive Java learning application using Google AI Studio during studies at WeThinkCode_.
- Covers core Java concepts including syntax, OOP principles, and program structure in a guided format.
- Demonstrates a learn-by-building approach to deepening Java proficiency alongside formal coursework.

HJR Auto & Panel — Business Website Rebuild

HTML, CSS, JavaScript (single-page, dark theme)

- Rebuilt client website with dark-themed responsive design, base64 photo gallery, and lightbox.
- Embedded Google Maps and included POPIA-compliant invoice payment terms.

EXPERIENCE

Founder & Lead Developer — Lume Systems (Pty) Ltd

Cape Town | 2024 – Present

- Registered Cape Town technology company providing software and digital operations services to SME clients.
- Rebuilt client website (HJR Auto and Panel) with responsive dark-theme design, photo gallery, and Google Maps integration.
- Recreated Excel quotation templates and automated PDF invoice generation using Python and ReportLab.
- Drafted POPIA-compliant client-facing documentation and payment terms.

Front Desk Coordinator — WeThinkCode_

Cape Town | 2026 – Present

- Manage front-of-house operations for a technical coding campus serving 300+ students.
- Coordinate visitor access, staff communications, and administrative workflows.

Voter Registration Officer — Independent Electoral Commission (IEC)

Western Cape | 2024

- Facilitated voter registration drives across Western Cape during national election period.

Cruise Terminal Operations — Cape Town Cruise Terminal

Cape Town | 2023

- Supported port operations and passenger services for international cruise arrivals.
